WORK FASTER, SAFER AND CLEANER IN ANY ENVIRONMENT

Since the debut of The Original® work glove at the 1991 Daytona 500, Mechanix Wear has built a reputation as the leader in high performance hand protection. Each glove has its own story and unique way of delivering superior fit, feel, and functionality to your hands. From basic to task specific hand protection, our mission is to look beyond conventional ideas and innovate the most advanced hand protection in the world. **The Tool That Fits Like A Glove®**

WHY?

EVERYONE WITH A TOOLBOX IS A GLOVE CUSTOMER.

It seems like it was just yesterday when we started building specialized hand protection for professional race teams. Over 20 years later, millions of hardworking hands in numerous industries have adopted Mechanix Wear® gloves. Our focus on maximizing individual safety and productivity has led to the development of the highest quality work gloves delivering superior fit, feel and functionality to working hands. From Material 4X® durability to CR5 cut resistance, our mission is to look beyond conventional ideas and innovate the most advanced materials so you can work faster, safer, and cleaner. With each new market, the Mechanix Wear® brand transcends its racing heritage and cements its place as the innovative leader of the high performance work glove revolution.

21,000,000 TOOLBOXES SOLD A YEAR

WHAT'S IN YOUR TOOLBOX? Professionals and enthusiasts agree - the right tools get the job done. Period. Whether you're an auto mechanic, construction worker, electrician, plumber, heavy equipment operator, law enforcement officer, or a service member with the armed forces - there's a pair of Mechanix Wear® gloves designed for you. The workplace is evolving but the tools remain unchanged. Wherever you find a toolbox, you will find a pair of Mechanix Gloves close by.

EXPOSURE

75 MILLION FANS AND GROWING.**

NASCAR® has 75 million fans!** That's one-third of the entire U.S. adult population. How can you pass up an opportunity like that? In addition to television, we reach these fans with over 1,800 thirty-second radio spots on top rated Sirius® and XM Satellite® radio stations, including Fox News, ESPN Radio and NASCAR® Radio. By going out of this world with satellite radio, we reach more than just race fans; we reach the general consumer market as well . . . **EXPOSURE**

5 MILLION HOUSEHOLDS TUNED IN WEEKLY.*

This makes NASCAR® Sprint Cup events the #2 rated regular season sport on television, trailing only the NFL. Not only did race fans see over 13.2 hours of on-camera, in focus exposure of Mechanix Wear® Gloves during the broadcast of NASCAR® events last year*, they saw our gloves in countless other racing events, television shows and feature films. Chances are pretty good that if your customer saw someone using high performance work gloves on television, it was a pair of Mechanix Wear® Gloves. What else can we say? . . . **EXPOSURE**

296 MILLION ANNUAL IMPRESSIONS.***

It's all in the print. We advertise in over 50 national publications, putting the Mechanix Wear® brand in front of millions of potential customers. Our constant presence builds credibility for the product category and creates demand for our brand. Making Mechanix Wear® the #1 brand, and the only high performance work glove consumers will ask for by name . . . **EXPOSURE**

INNOVATION

CATEGORY LEADERS CHAMPION INNOVATION. At Mechanix Wear® we believe small advancements yield big outcomes. Since the very first Original® mechanics work glove, our focus on anatomical design and material development has produced an extensive line of hand protection serving working hands in countless professions. Over 20 years of research, development, design and innovation has led to a diverse mix of protective and performance features. Such features include: ANSI-107 compliant high-visibility protection, injection molded Thermal Plastic Rubber impact protection, XRD® open-cell performance cushioning, Armortex® blade cut-resistance, high-abrasion resistant Material4X® and environmental protection such as 3M™ Thinsulate™ insulation and OutDry® waterproof technology. When it comes to protecting working hands look to Mechanix Wear® to push the boundaries and develop the next innovative idea in the high performance glove market.

THE DETAILS ARE IN THE TOOL

FOUR REASONS WHY MECHANIX GLOVES WORK

INNOVATION

High performance materials, anatomical design, and superior build quality provide your hands with functional hand protection fit for daily use. Mechanix Wear® gloves are designed to combat daily hazards and injuries ranging from harsh abrasions, cut and puncture wounds to broken bones, joint damage, and vibration injuries. From concept to finished product, you can count on Mechanix Wear® innovation to help you work faster, safer, and cleaner with more power and control.

QUALITY

With over 20 years of experience making gloves, Mechanix Wear® knows quality control is serious business. Therefore, we go to extremes to supervise the manufacturing and material quality of our gloves. We employ quality control specialists in our facilities that actively inspect the fit and build quality of our gloves before they ship to you.

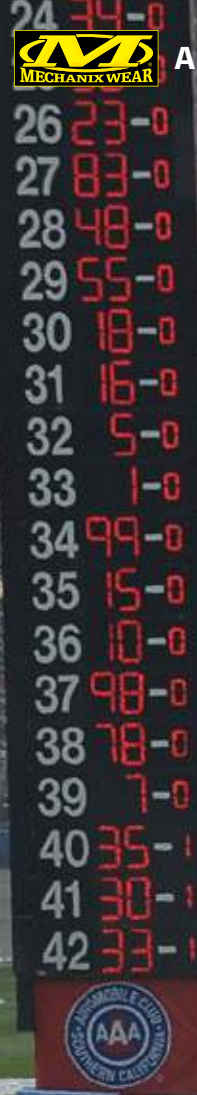

EXPERIENCE

Our roots are in racing, and our experience at the race track has led to the development of some of the most advanced materials and design features. From impact absorbing palm padding to durable fingertip construction, our experience at the track has led to some of the most advanced protective features in the industry. Since the development of The Original® Glove, Mechanix Wear® has worked hand-in-hand with individuals in numerous industries to develop specialized hand protection for a wide variety of users.

BRAND RECOGNITION

Mechanix Wear® reaches 100 million customers monthly through television, print, radio, social media and racing events around the world. The #1 glove in racing is used by NHRA, Supercross, Motocross, IndyCar, MotoGP and all 43 NASCAR teams. Your customers will ask for us by name. Mechanix Wear® Gloves. The Tool That Fits Like a Glove®.

THE STANDARD TOOL IN RACING

BORN IN THE PITS. Professional race team mechanics and pit crews trust their hands with Mechanix Wear® on race day. Not every toolbox is the same, but when it comes to protecting your hands in the garage only the best in fit, feel and function will get the job done. Whether you're pitting a racecar in less than fourteen seconds or manning a lift at the shop, Mechanix Wear® helps you work faster, safer and cleaner.

FIT
Form-fitting stretch Spandex provides a comfortable fit.

THE ORIGINAL®

Despite its imitators, our Original® glove remains in a category all its own. Tried, tested and proven for over 20 years, it provides the perfect blend of flexibility and protection. Durable synthetic leather, form-fitting stretch Spandex and a flexible Thermal Plastic Rubber (TPR) wrist closure combine to create the ultimate tool for working hands. With a gamut of practical uses, it's no surprise that The Original® is the most recognized and most frequently worn glove by anyone with a toolbox. *IMPORTED*

SEAMLESS PALM
Seamless single layer palm provides maximum dexterity.

INSULATED
Insulated and fleece lined back-of-hand provides warmth and comfort.

WATER RESISTANT
Durable, water resistant coated fleece and liner keep hands dry.

THE ORIGINAL® INSULATED

The brisk, cold air can make even the simplest task more burdensome, so we created The Original® Insulated glove to lock in the warmth. A comfortable layer of form-fitting fleece lines the entire glove, preserving warmth without sacrificing valuable dexterity. We went a step further and incorporated a durable water-resistant coating and a water-resistant liner in the palm to keep your hands dry. Top it off with a low-profile Thermal Plastic Rubber (TPR) closure and you have a critical cold weather tool. *IMPORTED*

DURABILITY REDEFINED

Outlasts All Other Synthetic Leathers

Material4X® synthetic leather outperforms standard synthetic leather gloves and rivals the function and feel of natural leather. The secret is in the dense fiber structure of Material4X®. Natural leather is not always uniform in thickness and can have inconsistent fibers depending on the portion of the hide. The dense fiber structure of Material4X® provides consistent quality, higher abrasion and greater tear resistance than standard synthetic leather gloves.

DURABILITY
Material4X® delivers higher abrasion resistance and greater tear resistance than standard synthetic gloves.

FIT
Form-fitting TrekDry® helps keep hands cool and comfortable.

MATERIAL 4X ORIGINAL®

The glove that gave us our name in motorsports returns with Material4X® durability. Material4X® synthetic leather redefines durability with higher abrasion resistance and greater tear resistance than standard synthetic gloves. Material4X® is completely machine washable, making this glove as practical as it is popular. With the same fit and feel of our Original® glove, Material4X® proves that a good thing can just keep getting better. *IMPORTED*

IMPACT PALM
Anatomical palm padding and a 4mm XRD[®] impact pad absorb shock and vibration.

INDUSTRIAL SAFETY M-PACT[®] 2

The Safety M-Pact[®] 2 provides full-coverage hand protection and high-visibility for hazardous work environments. The unique accordion knuckle design and molded finger guards provide heavy-duty impact and abrasion protection without sacrificing valuable dexterity. Your palm is fully protected with anatomical palm padding and a 4mm XRD[®] impact pad to reduce shock and vibration. Armortex[®] fingertip reinforcement provides durable gripping power so you never lose control. Top it off with high-visibility reflective print, fluorescent ANSI-107 compliant material and a Neoprene cuff for one highly visible tool. *IMPORTED*

CUT RESISTANCE
Internal layer of Armortex[®] delivers CE level 5 cut resistance to the palm and fingers.

HIGH-VISIBILITY
ANSI-107 compliant TrekDry[®] improves breathability and enhances visual awareness.

ORIGINAL[®] CR5

The Original[®] CR5 is your first line of defense against cut hazards in the workplace. The glove features a synthetic palm with an internal layer of Armortex[®], delivering CE level 5 cut resistance to the palm and fingers. Fluorescent, ANSI-107 compliant TrekDry[®] form-fits the hand and provides a cool, comfortable fit in warm environments. Top it off with a secure Thermal Plastic Rubber (TPR) wrist closure and you have a critical cut resistant tool. *IMPORTED*

CR5

CUT LEVEL 5

A CUT ABOVE. Mechanix Wear CR5 protection delivers CE level 5 cut resistance to working hands in industries where sharp tools and sharp materials are present. The CR5 Series features Armortex[®] cut technology designed to deliver functional cut resistance to the palm and fingers without sacrificing fit, feel and overall dexterity.

PINCH-POINT PROTECTION
Full-coverage impact and pinch-point fingertip protection.

IMPACT PALM
Genuine leather palm conceals XRD[®] palm padding.

INDUSTRIAL SAFETY HEAVY DUTY

The Hi-Viz Heavy Duty work glove is your first line of defense against impact, abrasion and hand fatigue on the job. ANSI-107 compliant fluorescent materials make you more conspicuous in hazardous work environments and reflective ink provides eye-catching luminance. The palm features machine washable leather, multi-zone padding with XRD[®] protection and leather reinforced fingertips where you need it most. High-visibility Thermal Plastic Rubber (TPR) impact protection disperses damaging blows to the top of your hand and extends to the tip of each finger for critical pinch-point finger protection when operating heavy equipment. *IMPORTED*

KNUCKLE GUARD
Thermal Plastic Rubber (TPR) extends from the knuckle guard to the tip of each finger.

CUT RESISTANCE
Internal layer of Armortex[®] delivers CE level 5 cut resistance to the palm and fingers.

M-PACT[®] CR5

Sharp tools and sharp materials put working hands at risk of severe abrasions, lacerations and puncture injuries. The M-Pact[®] CR5 features a synthetic palm with an internal layer of Armortex[®], delivering CE level 5 cut resistance to the palm and fingers. Sonic welded Thermal Plastic Rubber (TPR) delivers impact resistance to the top of the hand from the knuckles to the tip of each finger to reduce crushing and pinching injuries. XRD[®] protection in the palm reduces impact and vibration from hand tools for relief day in and day out. Visible hands are safe hands so we incorporated fluorescent, ANSI-107 compliant materials to improve visual awareness in the workplace. *IMPORTED*

THE ORHD®

RISK ON THE RIG. Oil and gas exploration and production operations expose rig hands to numerous on-site hazards. These hazards range from blunt force impact and pinching injuries to severe abrasions and lacerations to the hand. The ORHD Series is designed to safeguard crush zones with dual-density Thermal Plastic Rubber, resist cut hazards with CR5 protection, and protect against the elements with OutDry® waterproof technology.

ORHD® KNIT UTILITY

Gain more control during oil and gas drilling operations with the ORHD® Knit Utility. The high-visibility shell is built with 13-gauge machine knit polyester that form fits the hand for improved manual operation on the rig. Thermal Plastic Rubber (TPR) safeguards the knuckles, metacarpals, fingers, and thumb from common impact and abrasion injuries. We went a step further and extended the TPR to the tip of each finger for proven pinch-point protection from crushing injuries. The palm is padded and equipped with a tacky nitrile dip coating for durable gripping power in dry, oily and wet conditions so you can work with confidence. *IMPORTED*

COLD WEATHER

TOOLS FOR COLD WEATHER

DON'T SACRIFICE IN THE COLD. When the mercury drops the body fights to retain heat, whether you're shoveling the season's first snow or heading to the jobsite when you'd rather be inside. Heat retention is critical in cold working environments, but not just any cold weather glove will do. Mechanix Wear's Cold Weather gloves preserve warmth and shield your hands from wind-chill and wet conditions so you're always one step ahead of the cold.

HEAVYWEIGHT KNOT
Extended knit cuff keeps glove secure for use under jacket sleeve.

COLD WEATHER THERMAL KNIT

The brisk cold air can make even the simplest task more burdensome. The Thermal Dip glove comes in handy on cold days with its one-of-a-kind MicroFinish® palm coating that delivers superior grip and water resistance to your hands. The heavyweight knit shell and extended cuff offers breathable warmth when the temperature drops. From grabbing firewood to changing oil or anything in-between, our Thermal Knit glove provides a superior defense against whatever your hands encounter. *IMPORTED*

WATERPROOF PALM
MicroFinish® coating provides a dry firm grip.
